

# ***National Alliance to Impact the Social Determinants of Health (NASDOH)***

The National Alliance to impact the Social Determinants of Health is a group of stakeholders working to systematically and pragmatically build a common understanding of the importance of addressing social needs as part of an overall approach to health improvement.

## **Our Mission**

We seek to make a material improvement in the health of individuals and communities and, through multi-sector partnerships within the national system of health, advance holistic, value-based, person-centered health care that can successfully impact the social determinants of health.

## **About Us**

The Alliance brings together health care, public health and social services expertise, local community experience, community-convening competence, business and financial insight, technology innovation, data and analytics competencies, and policy and advocacy acumen to assess and address current regulatory frameworks, funding environments and opportunities, and practical challenges to implementing and sustaining social determinants of health efforts. We provide a bridge between sectoral efforts by engaging organizations across the national system of health and in particular, engaging the business sector to articulate the cross-sector value proposition for addressing the social determinants of health.

## **Membership**

### **Steering Committee**

Aetna  
Centene  
Cerner  
GE Ventures  
Intermountain Healthcare
